

KONSTANTIN CHAYKIN  
RUSSIAN EXCLUSIVE WATCHCRAFT

## Joker Halloween

For the Halloween holiday Konstantin Chaykin adds the “Pumpkin Head” to his Wristmons collection. Just one of this Halloween timepiece has been created, making it absolutely unique. Like all the previous mechanical monsters by Chaykin, the pumpkin wristwatch tells the time by rolling its eyes, points to the current time, and grins at the passing moon phase indicator. The bronze case adds a stylish touch to a special watch. Halloween can make over 20.000 different facial expressions and grimaces. However, almost all the time Pumpkin Head is in a terribly cheerful mood! Happy Halloween!
